

Tasks

- Types of Tasks the Pipeline Will Execute:
 - **Unconditional Image Generation:** generates an image.
 - **Text-Guided Image Generation:** generates an image based on a prompt.
 - **Text-Guided Image-to-Image Translation:** adapts an image based on a text prompt.
 - **Text-Guided Image Inpainting:** fills in a part of the image with a mask, based on a text prompt.
 - **Text-Guided Depth-to-Image Translation:** adapts part of an image based on a text prompt while preserving its structure
